

Eastern Retirement Trust for Employees of TAG Resources LLC (Plan)
IMPORTANT NOTICE TO PARTICIPANTS FOR THE 2026 PLAN YEAR

If I do not make an investment election, how will my contributions be invested?

Qualified Default Investment Alternative (QDIA): The Plan Fiduciary has decided to include a Qualified Default Investment Alternative (QDIA) under the Plan. This decision will not change any investment elections you have already made. This notice will explain more about what this may mean to you.

Your Right to Direct Investments: Your Plan allows you to direct the investment of some or all of the contributions made on your behalf in a number of investment choices. If you fail to provide investment direction, your Plan's Fiduciary will invest Plan contributions in a QDIA established under the Plan. The Plan Fiduciary has chosen the American Funds Target Date Retirement - R6 Target Maturity Series issued by American Funds as the QDIA for contributions made to your Plan account(s). Contributions invested in the QDIA are subject to gains or losses like other investment choices available under your Plan including losses near and following retirement, and there is no guarantee that the investment will provide adequate retirement income.

Your Right to Transfer Out of the Default Alternative Without Penalty: Subject to your Plan's distribution rules, you may withdraw defaulted contributions invested on your behalf by your Plan's Fiduciary in the QDIA. You may also make transfers from the QDIA to any other investment choice offered under the Plan on any business day without any penalties or fees, such as redemption or liquidation fees. However, the QDIA will be assessed an investment management fee and Contract Asset Charges, if applicable, and the Expense Ratio will be as noted below. In addition, Plan service fees may be charged on any withdrawal or distribution of your account balance from the QDIA.

Consequences of Your Failure to Make an Investment Election: When you fail to give investment direction after having been provided the opportunity to do so and the Plan's Fiduciary invests contributions on your behalf in the QDIA, you are considered to have exercised control over the investment of assets in your account(s). Neither the Trustees of your Plan nor your Employer or the Plan's Fiduciary will be liable to you for any loss that is the result of such investments.

Description of the Default Alternative: The American Funds Target Date Retirement - R6 Target Maturity Series allow participants to invest for retirement in one single step, into a fund that automatically adjusts to a more conservative allocation as retirement grows near. Default allocations are based on a projected retirement age of 65. If you have already turned 65, your contributions will be allocated to the most conservative fund available. A detailed description of the allocations by year of birth is listed next to each investment choice below:

If you were born:	Your applicable American Funds Target Date Retirement - R6 Fund is:

For example: Find your birth year in the chart above. Your Plan's Fiduciary will invest contributions made on your behalf to the investment choice listed in the column immediately to the right of your birth year. As described in the table below, the investment strategy for the investment choice corresponding to your birth year will periodically adjust to become more conservative as you approach retirement age.

Risk and Return Characteristics:

The investment choice(s) listed invest in a combination of domestic and foreign stocks, bonds, U.S. treasuries and money market securities.

Investment Risk:

The values of stock change in response to general market and economic conditions and the circumstances of individual issuers. The values of bonds change in response to changes in economic conditions, interest rates and the creditworthiness of individual issues.
